IMAM AGUS FAISAL

Klaten, Central Java, Indonesia
+6285727626962 | imamagusfaisal120@gmail.com | linkedin.com/in/imam-af/ | github.com/iamfeizal

Early career in Artificial Intelligence Engineer with hands-on experience in developing Machine Learning solutions. Certified TensorFlow Developer, proficient in Python, TensorFlow, Scikit-Learn, OpenCV, and PyTorch. Proven track record in data extraction, model training, and integration of ML systems in real-world applications. Experienced in leading and collaborating with cross-functional teams to deliver software development solutions. Currently focused on self-study to deepen technical expertise, with a long-term ambition to build a career in software engineering and AI-driven solutions.

EDUCATION

Universitas Pembangunan Nasional "Veteran" Yogyakarta
Bachelor in Information System | GPA: 3.82 / 4.00 Sep 2020 – Nov 2024

- Highest GPA of the Information System study program in the 3rd Graduation Period 2024/2025.

EXPERIENCES

Dinas Komunikasi Informatika dan Persandian Kota Yogyakarta
Software Engineer Aug 2025 – Present

- Develop and Maintenance Jogja Smart Service Mobile App for iOS and Android
- Develop Jogja Smart Service AI Chatbot
- Collaborate with Business Analyst and Information System Designer to create solutions-based app.

PT Stechoq Robotika Indonesia
Software Engineer Intern (Machine Learning Specialization) Feb 2024 – Jun 2024

- Develop a system for Pan Flute based device with Artificial Intelligence.
- Integrate data communication from system to the Festo PLC via UDP Port.
- Successfully became one of the projects showcased in front of "Menteri Sekretaris Negara" and "Menteri Koordinator Bidang Kemaritiman" of the Indonesia Maju Cabinet.

Universitas Pembangunan Nasional "Veteran" Yogyakarta
Laboratory Assistant Feb 2022 – Jun 2024

- Taught and assisted practicums with a total of 9 different practicums, ranging from technical programming to managerial and enterprise information systems.
- Organizing practicum exams and correcting the results of practicum exams.

RELEVANT PROJECTS [PROJECT BRIEF]

CCTV Auto Attendance [GitHub]
Developed auto attendance system using RTSP-based input with Haar Cascade and FaceNet, achieving 89.92% accuracy.
Tech: Python, Django, RTSP, OpenCV, PyTorch, Haar Cascade, FaceNet, YOLOv8.

Portfolio Website with AI Assistant [GitHub]
Developed a personalized portfolio website integrated with an AI-powered chatbot assistant to enable real-time, interactive conversations with recruiters through a customized dialogue experience.
Tech: JavaScript, React JS, Gemini API, LLM, Vite, Vercel.

Human Resource Analytics Dashboard [GitHub]
Built a data-driven HR analytics dashboard and predictive machine learning model to identify key factors influencing employee attrition, enabling strategic actions to reduce churn and improve workforce retention.
Tech: Python, Jupyter Notebook, Metabase, PostgreSql, Deep Learning, TensorFlow, Scikit-Learn.

CaloryIn [GitHub]
Created mobile app that classifies food images and retrieves nutrition data using image recognition. Integrated TensorFlow Lite for inference on-device. Final capstone project for Bangkit Academy.
Tech: Python, Jupyter Notebook, TensorFlow, MobileNetV2, Google Cloud Platform (GCP).

VEMD Pan Flute [GitHub]
Built an AI-powered Pan Flute device that detects pitch from audio input using Spotify's Basic-Pitch model, processes it with a custom algorithm, and transmits data via UDP to a PLC.
Tech: Python, Streamlit, Spotify's Basic-Pitch, UDP, PLC.

RELATED COURSEWORK

elevAIte (Fresh Graduate Academy) by DigiTalent Scholarship
Microsoft Azure AI Specialization May 2025 – Jun 2025
- Develop digital solutions through Microsoft Azure AI

Juara GCP Season 11 by Google Developer Community
Google Cloud Platform AI Specialization Feb 2025 – Mar 2025
- Develop AI solution through Cloud Platform

Indosat Ooredoo Hutchison Digital Camp
Multi-Platform App Developer Sep 2023 – Dec 2023
- Develop Multi-Platform application with Flutter

Bangkit Academy 2023 led by Google, Tokopedia, Gojek, & Traveloka
Machine Learning Cohort Feb 2023 – Aug 2023
- Develop machine learning model and implement to mobile based application using TensorFlow Lite.

Baparekrat Digital Talent Scholarship
Google Data Analytics Specialization Oct 2022 – Dec 2022
- Learn data analytics specialization from data cleaning to data-driven decision making.

SKILLS

Programming Language
Python, SQL, Dart, JavaScript, C++, C, C#.

Technologies and Frameworks
TensorFlow, Linux, Git, OpenCV, Scikit-Learn, PyTorch, Streamlit, Django, Numpy, Pandas, Matplotlib, Seaborn, MySQL, PostgreSQL, Google Cloud Platform (GCP), Vertex AI, Metabase, Azure AI, Flutter, Firebase, React JS.

LEADERSHIP

PT Stechoq Robotika Indonesia
Project Manager Feb 2024 – Jun 2024
- Lead multi-disciplinary team to achieve goals by applying the Agile Framework.
- Revise and approve the budget plan or bill of materials for the project, with mentors and general affair.

Universitas Pembangunan Nasional "Veteran" Yogyakarta
Coordinator of Laboratory Assistants Jul 2022 – Dec 2022
- Coordinate other laboratory assistants of Basic Algorithms & Programming and Fundamentals of Programming.
- Establish lecture contracts, revise practicum modules, and monitor all practicum to achieve set targets and schedules.

UKM Bulutangkis Universitas Pembangunan Nasional "Veteran" Yogyakarta
Vice Chairman Feb 2022 – Dec 2022
- Successfully participated in organizing university level competitions with student executive board (BEM).
- Successfully won several championships in inter-university competition events.

CERTIFICATES

Microsoft Certified: Azure AI Engineer Associate - Microsoft [Credentials]
TensorFlow Developer Certificate - TensorFlow Certificate Program [Credentials]
Google Data Analytics Professional Certificate - Google [Credentials]
